Smart Dimmer
Works with Siri Shortcuts, Alexa and Google Assistant

Easily turn lights On/Off, set groups and schedules. Choose energizing daylight or wind down with relaxing soft white light. Get creative with color, it’s all up to you. Control lighting with simple voice commands and an intuitive mobile app. Set up is simple. The dimmer connects directly to your Wi-Fi at home. It has never been easier to customize your home’s lighting to suit your lifestyle.
Go to your Wi-Fi settings and connect your phone to your 2.4GHz Wi-Fi network.

Connect to a 2.4GHz Wi-Fi Network. Download and install the Feit Electric App.

NOTE: Only works with 2.4GHz Wi-Fi networks

Download and launch the Feit Electric App

Tap Settings for the Do Not Disturb option.

Device Sharing

Share Devices

Add a new member to share all devices and smart scenes. Home Settings

Those users are sharing some of your devices at home.

From the Profile Home Screen tap Share Devices.
From the Home Page tap **Profile**.

**Tap Share Devices.**

**Tap Share Devices at the bottom.**

Select the device that you wish to share.

**Tap **Sharing** in the upper right corner.**

NOTE: New members must set up an account before sharing is possible.

① Enter the new member’s mobile number or email address

② then tap **Done**.
From the Profile Home Screen tap Help Center.

From the Help Center tap Network Diagnostics for network issues.

From Help Center tap Report Issues. Start a chat to help resolve an issues. Will show in My Feedback.
Use Scroll Bar to access more features.

From the Profile Home Screen tap About. Tap on Rate Us, About Feit Electric, Service Agreement and Current Version for more options.

From the Profile Home Screen tap either the Amazon Alexa or Google Assistant logo's for step by step instructions how to set up these devices.

From the Profile Home Screen tap Settings. Turn Sound On/Off, Push Notifications On/Off and Clear Cache.
FEATURES

1 On / Off / Settings

From the Home menu tap a dimmer icon to turn the dimmer On or Off.

Press and hold the icon for 2 seconds for the dimmer settings.

2 Settings / Dimming

Slide the dimming bar up or down to adjust the brightness level.

Tap Settings to adjust minimum brightness levels.

Troubleshoot Flickering

Adjust the minimum brightness of your dimmer

Adjust the low-end “trim” to optimize the dimming levels. For example, if lights start to flicker past 10% or turn off prematurely, you can adjust the trim to eliminate those problems.

Some bulbs may flicker at low brightness levels. Use Settings to adjust the minimum brightness level. For more information or to adjust at the dimmer, see “Set your dimming range and troubleshoot flickering” in the Installation Guide.
3 Schedules

Tap Schedule.

Tap Add Schedule.

1. Choose a Start Time (On) and End Time (Off). To repeat on certain days of the week, tap Repeat. Otherwise the schedule will only occur once.

2. Tap on the day(s) of the week you would like the schedule to repeat, then tap the back "<-" the Save.

Settings

For more features, tap the context menu in the upper right corner (●●●).
From the Home Page, tap Groups.

NOTE: To create groups you will need at least 2 Dimmer Switches.

Once you are in Groups, tap Create Group.

Tap Dimmer Switch.

Select the Dimmer Switches that you want to group.

Select the devices to join the group

Tap Enter Group Name and name your group.
Once the group is named and the Dimmer Switches are selected tap **Save**.

Select the group to edit.

Once selected, tap **Edit**.

Rename the group or remove a bulb from the group. Once complete, tap **Save**.

Once the group is named and the Dimmer Switches are selected tap **Save**.
Tap **Groups**.

Tap (・・・).

Tap **Delete Group**.

Select the group to delete. Once selected, tap **Delete** in the upper right corner.

Tap **Confirm** Delete Group.
**Add a Room**

Tap the settings icon “⚙️” from the home menu.

Tap Add a Room.

**Room Settings**

Tap on a preset room name or create your own.

Add individual dimmers by tapping on the ✖️ icon next to each device name.

**Device Sharing**

Remove individual Dimmers by tapping on the ✖️ icon next to each device name.

When finished, tap on Save.
In the Scene Tab screen, tap the Add + icon or Add Scenario to create a new scenario.

Enter the Scene Name by tapping on the Pen icon.

Then, tap Confirm.

Next to “Execute following actions" tap the + icon or tap the Add Action box.

Use Smart Scenes to setup and name an action or group of actions to occur at the same time.

Open the Feit Electric App and tap Smart Scenes located at the bottom of the screen.
CREATING SMART SCENES

4 Select Action

On the Select Action screen, tap on a Device or Group to execute an action on.

5 Select Function

On the Select Function screen, tap Brightness.

On the Brightness screen, tap your dimming option.

Select Function

On the Select Function screen, tap Switch.

On the Switch screen, tap ON or OFF.
CREATING SMART SCENES (Selecting Functions.)

6 Smart Setting

Once you have configured your action(s), tap Save.

7 Scenario

See your Scenario in Smart Scenes under the Scene tab.

It will also appear on the top of your My Home screen.

Tap on Scenario to execute your action.
Creating Smart Scenes (Automation)

Set up actions that occur automatically. Automations can be triggered by other smart devices, sunrise/sunset etc. From the Home Page tap Smart Scenes.

1. Tap Automation at the top of the screen.

2. Then, tap “Add Automatic Action” or tap the “+” icon on the top right.

3. Tap Enter Screen Name. Give it a name then tap Confirm.
CREATING SMART SCENES (Automation)

Tap “+”, then select a condition in the Select Condition window.

Select your location under Current City. Tap on a Condition (in this example, Sunrise).

Example:

Then tap on “+” on Execute following actions.
On the **Select Action** screen, tap on a Device or Group to execute an action on.

On the **Select Function** screen, tap **Brightness**.

On the **Brightness** screen, tap your dimming option.

On the **Select Function** screen, tap **Switch**.

On the **Switch** screen, tap **ON** or **OFF**.
Once you have configured your action(s), tap **Save**.

See your **Automated Actions** under the **Automation** tab.
ENABLE SIRI SHORTCUTS (For use with iPhone)

1. Control Function
   - To enable Siri to recognize the scenario you have created, open the Feit Electric App and tap Smart Scenes located at the bottom of the screen.
   - Note: To set smart scenes see Creating Smart Scenes

2. Control Function
   - In the Scene Tab screen, tap add to siri at the bottom of the screen.

3. Control Function
   - In the Siri Shortcut screen, tap on the scenario you would like to add.
ENABLE SIRI SHORTCUTS (For use with iPhone)

4 Adding Function
Once on the Add to Siri screen, tap on Add to Siri at the bottom of the screen.

5 Adding Function
Now you can use the “Hey Siri” command to control this action from your iOS device.
“Hey Siri” “Switch ON”.

“Hey Siri” “Switch ON”.
