

DUAL MODE T8 LAMPS

This universal lamp can be installed in fixtures with or without a ballast, making it ideal for retrofit applications where the fluorescent systems are being upgraded to save energy and maintenance costs. With this tube you can elect to utilize the existing ballast with no rewiring, or install directly without ballast.

Features and Benefits

- Direct replacement of fluorescent tubes, no electrical modification to fixture is required
- Includes the tombstones for ballast bypass
- Compatible with electronic ballasts
- Encased in a film to prevent breakage
- Easy and quick to install
- Can operate directly from line voltage
- 5 year warranty
- UL listed
- NSF cert in process
- DLC listed for utility rebates
