

LED FIXTURE

SPECIFICATIONS

Grow better, stronger plants with the Feit Electric GLP48FS/VM/54W/LED four-foot full spectrum grow light fixture. Rated for high humidity, this plant light is ideal for soil or hydroponic gardens, assisting all phases of indoor plant growth. Full spectrum wavelengths promote photosynthetic response, with bulbs integrated directly into the fixture taking away the chore of replacing them. Each lightweight fixture is linkable with up to eight total, and comes with a 5ft plug-in cord and a 6-inch hanging wire harness. Our energy-efficient LED grow lights last 25,000 hours / 22 years and put out little heat, saving your crop from burn damage. Choose a no humming, dependable grow lighting fixture for your hydroponic needs.

48 inch Vertical Mount Full Spectrum LED Grow Light
GLP48FS/VM/54W/LED

Features

- Use as a plant, hydroponic or horticulture grow light
- Emits spectrum wavelengths and color for superior photosynthetic response
- Operates cooler than HPS lamps to guard against leaf burn and crop damage
- Save energy and money with innovative LED lighting
- Ideal for Horticulture Lighting
- 1 Year Warranty
