

# LED LAMP

## SPECIFICATIONS

Grow better, stronger plants with the Feit Electric adjustable spectrum grow light fixtures. Adjust the light color spectrum on the fixture to promote plant growth at every stage, from seeding to flowering. Turn the lights on or off, and control lighting modes from a distance easily with the included remote control. Snap up to three fixtures together for length or a larger canopy and control them together with a single remote. Energy-efficient LED grow lights last 25,000 hours / 22 years and put out little heat, saving your crop from burn damage. Each lightweight fixture comes ready for flush mount or hanging installation.

### Ideal For

Horticulture Lighting

### Benefits

- Use as a plant, hydroponic or horticulture grow light
- Combine white, blue and red spectrum colors to focus on seeding, flowering, or plant growth
- Operates cooler than HPS lamps to guard against leaf burn and crop damage
- Turn on/off, or adjust lighting modes any time with included remote control
- Damp Location Rated
